

## FY 2019 HCCN Technical Assistance Funding: How we can help

Last week HRSA announced the funding opportunities for FY 2019 Health Center Controlled Networks Technical Assistance. As stated by HRSA *"The Fiscal Year 2019 HCCN funding opportunity will increase health center participation in value-based care."* HRSA will be awarding \$42 million to around 50 HCCNS. To read more about who can and how to apply, plus additional resources [click here](#).

CURIS is here to ask, "How can we help you?" We offer many services and hold subject matter expertise in many key areas relevant to this year's NOFO.

### Consulting Services:

- Member assessment on needs and priorities in alignment with HCCN goals and objectives
- Enhancing the patient and care team experiences
- Advancing interoperability through clinical integration and optimizing technology
- Using data to drive quality and enhance value
- HCCN Workplan Development and strategic planning
- Customized support to drive outcomes and achieve goals

CURIS Consultants are also available to help you

### Where are we next?

We are currently working on our 2019 Calendar for speaking engagements and webinars. Check our website for updates!

### Want to book us?

CURIS Consulting Team conducts several speaking engagements a year at various conferences. If you are interested in

execute on the trainings and technical assistance for your membership! Ways that we can help you help your membership include:

**1-2 day Intensive Workshops:** Topics including, but not limited to:

- Value Based Preparedness and Success
- Continuous Quality Improvement
- Risk Management and Compliance
- LEAN/Six Sigma
- PCMH 2017 Recognition and Practice Transformation
- Care Management/Care Coordination
- Data Strategy and Meaningful Utilization

**Technical Assistance:**

1. Health Center performance assessment and remediation planning
2. Education and Training webinar series (topics of your choice)
3. One on One coaching to drive operational and clinical performance improvement
4. Collaborative programs focused on clinical and quality outcome improvement
5. Value Based readiness assessments
6. Clinical integration operationalization

**Diabetic Population:**

FY2019 continues the focus on driving outcomes improvements in the Diabetic Population. The Bureau is highly focused on the priorities around these improvements and we have the answers. We have built a targeted education series and interactive Learning Collaborative to assist networks and their members. We have targeted interventions to address the challenges of achieving improvements in chronic disease management, especially in Diabetes and co-occurring conditions.
