## KNOW YOUR STATS

## QUOTE OF THE MONTH

### Step Approach to Risk Stratification<sup>1</sup>

1. Better data means a better process
2. The patient's voice and the clinician's judgement are both essential
3. Start where you are
4. Know your patient (empanelment)
5. Know why you stratify
6. Risk is dynamic, not static
7. Risk Stratification and panel management demand and foster workflow redesign
8. Data alone is a start, not an endpoint; transformation requires action
9. Risk stratification is the way of the future

"Risk Stratification is the way of the future. This is not a phase. A critical

Almost 27 Million people in the USA, that is 1 in 12, rely on a HRSA funded Health Center for care.
