

Practice Transformation- Where to Begin?

If your current 2019 Health Center plan involves practice transformation, just getting started can be overwhelming. The good news is, you are not alone in this process. There are many resources available to help guide you through this journey, for example NACHC, NCQA, your state PCA/HCCN, and CCE certified consultants such as ourselves.

When we work with our clients, we outline key strategies to help guide you through the process of building a strong transformation plan that is consistent with all of the key elements of infrastructure, PCMH, Value Based Care, Quality Improvement, etc. These strategies include.....

- Assessment of Current State
- Defining Future State Goals
- Performing Gap Analysis
- Designing a Transformation Road Map
- Establishing the Necessary People, Process, and Plan
- Perform Incremental Process Improvement
- Adoption of Systematic & Continuous Quality Improvement

Through evidence based strategies and the principles of strategic organizational leadership, practices can establish a meaningful and comprehensive transformation plan to propel them into becoming a high performing health center.
