

# CURIS Monthly Newsletter: September/October Edition

## HIGHLIGHT ARTICLE

### Using Real World Data to Inform Clinical Care:

Read this 5 Question Interview with "Tina Hernandez-Boussard. "The term "real-world data" comes from the idea that EHRs aren't just health histories of single individuals; they're a trove of information that can help guide clinical decisions, from diagnosis to treatment."

## KNOW YOUR STATS and Question of the Month

### 2018 National Health Center Data

With an upcoming vote from Congress on health center funding, it's important to know

For PCMH: Under CM 04—  
Person-Centered Care Plan.  
Can the care plan be performed  
via phone encounter by a nurse  
and a dietitian?

**Answer:** No, NCQA requires that the care plan must be done at a relevant visit. The care plan has to be electronic and must be able to be shared. As well as, able to be reviewed and signed off by

the data. Health Centers are a vital part of their community. A loss of funding would impact those who rely on health centers for their medical and dental care.
