

Getting Through COVID-19 Together

On behalf of the CURIS Team,

We know that Community Health Centers are on the front lines and are actively working to manage the current health crisis related to Covid-19. As your Health Centers' focus areas shift to crisis mitigation & planning, training, patient and staff safety, etc - we want to offer our support with any issues where we may be of assistance.

We have walked in the shoes of front-line Health Center staff and leadership. We know first hand, how difficult these types of situations can be and are here to help you deal with the crisis at hand or how to maintain forward momentum with pre-crisis activities! While your internal teams are focused on this current crisis, CURIS can augment your team by maintaining progress with QI initiatives, preparing for PCMH reporting, FTCA, etc. CURIS is here to help you and your team with operational workflow, compliance, risk management, quality assurance, emergency preparedness plan, business continuity, operationalizing new protocols and processes, training, technical assistance, etc.

Please reach out to let us know how our team can assist you through these difficult times.

Wishing you and your communities health,
Jennifer, Shannon, & Brittany
CURIS Consulting

Keep an eye on our Social Media Platforms as we share how other Health Centers are working around these difficult times to help their patients.

For Example:

- Drive Through Visits for: Medication Refills, Common/Non-Life Threatening Illnesses
- Utilizing parking lots as waiting rooms
- Telehealth
